ALEXANDRIA, VA., FRIDAY EVENING, SEPTEMBER 15, 1905.

PRICE 2 CENTS.

DO YOU FEEL THIS WAY.

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at night unable to sleep? Are your nerves all gone, and your stomach has no appetite to digest food?

If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your sluggish liver to work. It will get into every vein in your body and purify your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his own experience and varied practice.

O. S. Cooper, Esq., of Mount Union, Huntington, Pa., writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more severe until it caused waterbrash and vomiting of a slimy yellow water. A physician told me I had a form of dyspepsia and tried me for treatment and I got some better but only for a short time. I then tried another one, who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better, but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief. I then tried Dr. Pierce's medicine using his 'Golden Medical Discovery' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before."

Don't be deceived by a penny grabbing dealer in taking inferior substitutes for Dr. Pierce's medicines, recommended to be "read as you find it."

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Watt's discovery. Hair, and consequent baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newb's Hairdressing restores this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpold Co., Lehigh, Mich.

Russia's Internal Troubles.

The breaking up by troops Wednesday at Helsingfors of a meeting of 800 delegates from all towns in Finland called for the purpose of discussing the political situation has aroused great indignation throughout Finland.

The meeting was an orderly one, and was composed of representatives from all the cities and towns in Finland. Many of the best citizens and even women were in attendance.

The action of the government in dispersing the gathering has fanned the dissatisfaction felt by the Finnish people, which yesterday even went so far as to bring forth threats to throw a bomb at the governor general, Prince John Obolensky.

The disbandment of the last battalion of the guards by the Russian authorities has proven to be unpopular, and since the dispersal of the meeting of delegates Wednesday this has been taken up as an additional grievance against Russia.

The body of Gen. Prince Amilakhov, formerly governor of Baku, was taken to Tiflis yesterday by troops and was buried without disorder occurring.

A proclamation signed by Assistant Minister of the Interior Trepoff has been posted throughout St. Petersburg again prohibiting the sale of revolvers or ammunition to the public generally and also forbidding army officers to purchase revolvers or ammunition without the permission of their superior. The orders recently issued forbidding the sale of arms or ammunition in the open markets were partly ignored Wednesday and the authorities searched the markets, confiscated all the arms and ammunition which were for sale and fined the dealers.

Further reinforcements have been ordered to Baku. The Governor of Elizabetopol has telegraphed for more troops owing to the menacing attitude of the rioters. A deputation from Elizabetopol yesterday presented a petition to General Shirinkin, commander of the forces, asking that immediate steps be taken to prevent further bloodshed. The revolutionary party at Tiflis yesterday issued a proclamation calling for a general uprising.

Farmers' National Congress.

The labor problem was the question of deepest interest yesterday before the Farmers' National Congress in Richmond. A resolution was offered and sent to the appropriate committee, favoring an amendment to the Federal Constitution so as to secure the election of United States Senators by the people.

"Alien Immigration and the need of Farm Labor" was the subject discussed by Robert DeC. Ward, of Massachusetts, who is a member of the Immigration Restrictive League and the National Civic Federation. Mr. Ward took the ground that the successful farmer must be intellectual and of high vitality. The immigrants at present, he said, represent a low grade of manhood. Farmers, he said, should advocate the three amendments to the immigration law which are to come before the next Congress and which provide for an increase in the head tax, the debarring of immigrants of poor physique and the illiteracy test.

Chairman Bijur, of the New York Associated Charities, took the opposite side of the question in a short address.

Delegate Beverly, of Virginia, said the North is luring away the negroes by social-equality inducements, and the labor situation in the South is bad. He opposed restricted immigration.

There was a general discussion, and the prevailing view seemed to be that, if possible, the good immigrants should be allowed to come and the undesirable class be kept out.

Frank Smith, of Virginia, urged that "for the sake of humanity the miserable people of Europe be not debarrd from the land of the free."

Congressman John Lamb, of Virginia, made an interesting address on "Postal Reforms and Improvements of Special Interest to Farmers."

Fired on by Canadians.

The fish tug W. C. McCarter, of the Keystone Fish Company's fleet, arrived at Erie, Pa., yesterday afternoon with a big hole in her side from a shot from the Canadian cruiser Vigilant. Capt. Frank Handy, of the McCarter, stated he was going after his nets, and was of the opinion that he was in American waters. About noon the Vigilant swooped down upon him before he was aware of her presence, and after signaling, fired upon him. The shell struck the tug near the water line, wrecking the machinery used for pulling the nets. The McCarter hastily put for shore. Although in a leaking condition the tug managed to reach port in safety. Capt. Handy, of the tugboat, says they were in American waters when fired upon, and to make their position secure he had started to get farther away, so there would be no doubt of their being in American waters. The American fishermen were badly scared, but managed to get away, knowing that surrender meant the loss of their boats.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter he says, "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a bottle of your great Electric Bitters, which cured me, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Biliaryness and Kidney Disease, by E. S. Leadbeater & Sons, druggists, at 3c. a bottle.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for ovarian or womb operations.

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Hotel English, Indianapolis, Ind., writes of her cures as follows:

Dear Mrs. Pinkham:— "I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for ovarian and female troubles. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life.
